BOARD:

Randy Ott from the Red Jacket Community Library addressed the board to give them a status update with their current location. The library is doing well and they are able to use extra space in the back for offices. The library will no longer be looking at the location of the old school in Manchester. The library thanked the board for their offer of using park land but it doesn't look like that will be a viable option.

Resident Rachel Herendeen addressed the board regarding her concern over rowdy behavior at the park across from the Village Office. She stated that not having a local police officer is bothersome as on numerous occasions the park has hosted a wild bunch of people that sound like they are fighting. Mayor Mink told her that she should call 911 when this is happening. Mayor Mink stated that the village will look into adding that section to officially be part of the park, as the park closes at 10:00 PM.

Resident Mike Sutter addressed the board about a significant water issue on Shirley Street. He states that the water is destroying his driveway. Resident Cindy Goodall, also present to address the Shirley Street water issue, showed a video on her phone of the deep water after the last significant storm. Trustee Lonneville spoke about the old storm system in that area. Trustee Lonneville provided a map that showed the storm drains and water lines. Mr. Sutter stated to the board, "If the water ever gets up to my garage, I will sue the village." Trustee Lonneville explained that there is not a system in place that would handle the amount of water in a short period of time.

Another issue presented by Cindy Goodall was that a neighbor filled in part of the property that has affected the water flow. Mayor Mink stated that the village will observe what problems this area has during a normal rain event. The Village will also contact the Town of Manchester regarding their drainage, and also address the issue with the neighbor that filled in her yard.

Cindy Goodall asked the board what the status is with regard to all of the water line breaks the village has. Mayor Mink stated that there isn't a current plan because it is an exorbitant amount of money to replace the main line. She was also informed that there is no problem with the water supply to Shirley Street. The previous issue of it being a dead end was fixed and the line is now looped in.

Mayor Mink informed the board that the RJ Community Center will be taking over the movies at Budd Park. Mayor Mink has had a preliminary discussion with them regarding either transferring the upper park area to them for give them a long-term lease.

Resident Rob Marino, not present, wanted the board to talk about his drainage issue (40 Booth Street). Mr. Marino previously stated that this was not a new issue and he wanted to know what the plan moving forward is. Mayor Mink stated that his driveway is lower than the road and that section of the street does not have a storm sewer. Trustee Lonneville will take a look and follow up.

Resident Shaylin DePuy at 15 Water Street also wanted the board to be aware of the drainage issue at her property. The Board stated that they will look into this during a normal rain event and follow up.

There was no further business to come before the board, so the meeting was adjourned by motion of Mayor Mink seconded by Trustee Lonneville, and carried unanimously at 4:16 P.M.
